HSE@lcoe.edu

Include client name, *phone number*, and *email*. Please email referral information after speaking with Reservation staff.

HSE Program Details

- » Open-ended and classes are fully virtual
- » Self-Paced - Students receive an individualized study plan and complete their assignments separately. An estimate of 6 months should be allotted for the program but this will be adjusted if needed.
- » Schedule - Hours will vary depending on the students requirement and availability.
- » Students must have access to a personal computer and internet. Tablets do not allow full access to classes.
- » Students are provided with access to a highly rated Learning Management System (LMS) that is the platform/tool used to study and prepare for passing the five HiSET tests resulting in the procurement of their High School Equivalency.
- » When students are ready to test on any of the 5 HiSET subjects, LACOE Liaison will arrange for testing at one of our 7 HiSET testing centers spread throughout the County thus minimizing or altogether eliminating the need for the request of ancillary funds to be issued for this purpose.
